

## ENSMOV Workshop

### IT tools for energy efficiency policies

21 July 2021

The ENSMOV consortium is organizing a workshop to discuss the role of IT tools in the implementation of energy efficiency policies based on a set of case studies. Informatic tools are seldom spoken of in traditional events dealing with energy policies, despite their importance in ensuring both the collection, monitoring, reporting and evaluation of projects and overall policies' results. The diverse geographical and thematic coverage will hopefully contribute to a fruitful discussion and give concrete advice on how to implement and fulfil Article 7 obligations with regards to MRV in EU Member States and beyond.

*In order to facilitate the discussion, the webinar will be governed under the Chatham House Rule\*.*

**Participation is free upon registration at the following link:**

<https://attendee.gotowebinar.com/register/1917666342714179596>

After registering, you will receive a confirmation email containing information about joining the webinar.

#### **Agenda (CET)**

10.00 The ENSMOV project, Ivana Rogulj, IEECP

10.10 The role of IT tools in energy policies, Timo Liederer, AEA

10.20 Case studies on IT tools

Austria: Elisabeth Böck, AEA

Croatia: Lovorko Marić, EIHP

Ireland: Joe Durkan, SEAI

UK: Angela Gracey Roger, EST

Italy: Livio De Chicchis, FIRE

11.40 Discussion

12.00 End of workshop

---

\* The Chatham House Rule reads as follows:

*When a meeting, or part thereof, is held under the Chatham House Rule, participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed.* This Rule allows those attending to speak openly in the meeting to express their views, which may be their own and not those of the organization that they represent. The most interesting outcomes from the meeting will be shared by the project consortium in the project documents and transmitted to the European Commission, ensuring that such contents are compliant with the Chatham House rule. The list of participants at the webinar will be shared in the reports sent to the EASME and the European Commission.
